**EXPERIENCE LEVELS:** When choosing your Child or Teens Experience Level please take into account numerous factors; how often they train, how talented they are, other sports they participate in, how they do against classmates. The length of time they have trained is not the only aspect to consider. The experience levels (years training) listed are just guidelines. Challenge your children and have them compete at an appropriate skill level. Please remember that NAGA has the right to place competitors in their appropriate division.

# **NAGA NO-GI POINT SCORING SYSTEM**

Throughout history the goal of wrestling in every form is control of the opponent. For thousands of years, this control has been understood in three distinct ways - Pinning, throwing, and submission. The greatest exhibition of control of all sports is forcing your opponent to consciously submit. It is this standard by which NAGA contests are instantly won. In the event that no submission occurs, the match must be decided by "Advantage" which is defined below. The player in a Grappling contest should attempt to get the Takedown, secure Dominant Control, and take the Submission.

**TAKEDOWN** Full Advantage (2 Points) is awarded for all Takedowns.

In determining the Takedown, the referee will look to who initiated the takedown, and how it ended up. Thus if one player shoots, his opponent sprawls, and the sprawling opponent then pulls Guard, a Takedown is awarded, as the initial movement was a Takedown attempt. If however a player aggressively pulls Guard from standing, no Takedown is awarded.

Note: The NAGA Scoring System is designed to award each player according to the standards defined above – Takedown, to Control, to Submission. Playing for points is not rewarded. Thus, if a player gets a Takedown, lets his opponent up, and then again goes for the Takedown, no consecutive points need be awarded.

**DOMINANT CONTROL** Full Advantage (2 Points) is awarded - Controlling your opponent is a crucial step to obtaining a Submission, thus Full Advantage (2 Points) is awarded for aggressively obtaining Dominant Control. Dominant Control is any secure form of control that lends itself to submission. The control has to be long enough to set up a submission attempt, which can be as short as a second or two. These forms of control include: -Back Mount\*; -Cross Side; -Head and Arm; -Knee on Stomach; -Mount; -North/South; \*Hooks are not required for Back Mount control.

Among the most common ways to get Dominant Position are: -Ending a Takedown with a Dominant Position. In this situation, two points are awarded for a Takedown, and another two points are awarded for obtaining Dominant Position, for a total of Four Points.

**SWEEP** Full Advantage (2 Points) is awarded -Sweep from bottom Guard or Half Guard to top position. Must initiate sweep from bottom to get the 2 points. Further, if you take the Back from Guard, this is the equivalent to a Sweep. Full Reverse that gets the 2 points - defined as going from the bottom of a Dominant Position to the top of a Dominant Position, leaving the situation totally reversed. For Example: You are bottom North-South, you roll the top player, and end up with top North-South.

Note: The NAGA Scoring System is designed to award each player according to the standards defined above – Takedown, to Control, to Submission. Playing for points is not rewarded. Thus, if a player simply transitions between Dominant Positions, he does not achieve additional points. For example, if you have Side Control, and you go to Mount, and then Knee on Stomach, no additional points are awarded. Further, in The NAGA Scoring System no points are awarded for Escapes. This, if you are Bottom Mount, and you bridge to In Guard, no points are awarded as you went from a disadvantageous position to a neutral position.

**SUBMISSION** Full Advantage (2 Points) is awarded for a Full and Strong Submission Attempt. A Submission is recognized as full and strong when one or more of the following occurs:

- The opponent takes time to escape;
- Upon escaping, the opponent does not instantly move to an attack of his own, but instead assumes a defensive posture;
- The defender is 'In Danger' - the finish has the potential for completion (if a kneebar, the hips have to be placed correctly, if a choke, the neck must have been reached, etc.);
- The finish in question is not a low percentage submission (wrist lock, body scissor, etc).

Minor Advantage (1 Point) is awarded for a Submission Attempt that is significant but does not meet the above criteria.

**TIE** In the event that players are equal in terms of Advantages, judges will determine a tie by considering first, who skillfully controlled the Pace, Place, and Position on the mat, in order to ultimately set up an eventual submission. Pace is which Grappler determined the tempo of the match. Place is which Grappler dictated where on the mat the match took place. Position is which Grappler successfully initiated the tie ups and other action.

If they are still equal, Judges will give the decision to the player with less warnings or cautions. Last, in the absence of any warnings or cautions, the edge shall be given to the fighter who better exemplifies the sport as an exciting, colorful, viable contest. If the players are still equal, then an overtime period can be called for.

**STALLING** The referee has the discretion to take 2 Points away from a grappler if they stall. A warning must be given at least once prior to points being taken away. The referee can warn a grappler up to 3 times prior to taking points away. The referee does have the right to stand the grapplers up or keep them in the same position after points have been taken away.

Tapping out can be done either verbally or through a physical tap. A competitor can tap with their hands, feet or even a nod of their head. This "Tapping" is a conscious admittance of loss or surrender to an opponent. Referee Stoppage (TKO, cuts, feels fighter is not capable of defending himself), Doctor Stoppage. Corner throws in the towel, Referee decision, Disqualification, Forfeit, No Contest. If the fight does not end by submission or by points, the referee will choose the winner based on the NAGA Decision Making Criteria included in this flyer. Interference by a corner with any official or fighter, attacking an opponent in any of these circumstances: Throwing an opponent off the mat, unsportsmanlike conduct. Boston Crab technique is not allowed. Any intentional use of an illegal technique or act of poor sportsmanship will result in the immediate ejection of those competitors/spectators. ## **FIRST TIME FIGHTING IN A NAGA EVENT?**

If this is your first time competing in a NAGA event, you are certain to have questions. We hope that by detailing what will happen during the day your experience will be enhanced. If you have concerns not addressed below, please contact us at 860-295-0403 or [President@NAGAFighter.com](mailto:President@NAGAFighter.com).

**WHO CAN ENTER?** NAGA does not require you to be on a team in order to compete. In fact, about 25% of our fighters are unaffiliated. NAGA events are open to all styles: Wrestling, Judo, Brazilian Jiu-Jitsu, Japanese Jujitsu, Sambo, Jeet Kune Do, etc. There are no restrictions on what form of grappling you practice. We have divisions for children and adults of all ages and of all skill levels, in both gi and no-gi competition.

**WHAT TIME DO I SHOW UP?** The doors will open at 8:00 AM. The rules meeting is normally between 10-10:30AM. You should attend the rules meeting if this is your first tournament. The matches normally start between 10:30-11AM.

**WHEN IS MY FIRST MATCH?** NAGA runs both one and two day tournaments. For one day tournaments, Kids/Teens go first followed by Adult No-Gi, and finally Adult Gi. For two day events, Adult No-Gi is followed by Adult Gi on Saturday. Kids/Teens No-Gi then Gi goes on Sunday. As a general rule, get there early and see the schedule located at each ring for division start time estimates.

**REGISTRATION: PREREG or AT THE DOOR?** All competitors must register. This can be done at the door the morning of, the night before the event, or you can pre-register by filling out and returning the enclosed form along with the entry fee. All pre-registered competitors get a FREE t-shirt and the use of a special expedited line at the door. Athletes choosing to register at the door on event day do not get the shirt and will have a longer wait due to the time necessary to process paper work. Note: registering the night before does not get you a free competition t-shirt.

**INDEX CARDS & WEIGH IN:** When you register you will get an index card for each division you are competing in that day. If you enter more than one division, you will receive a card for each division. After registering you will proceed to the weigh-in station to weigh-in. If you do not make your intended weight, you can enter a heavier division or you can cut weight and weigh-in again. The scales are open all day!

**WHERE IS MY DIVISION?** NAGA uses 12 Rings running continuously throughout the day. When you register, you will be given a sheet indicating what ring your division is in and the order of divisions in each ring. This information is also posted at each ring, and at the weigh-in station.

**WHAT HAPPENS WHEN MY DIVISION IS CALLED?** When your division is called, you will bring your index card for that division to the ring and give it to the ring coordinator at the ring table. The coordinator will verify the competitor is in the division that was called. The competitors will be separated by weight and school. Byes will be given based on ranking or weight. When the draw is completed, the first two fighters will be called onto the mat, whereupon they will shake hands and the referee will start the match. At the end of the contest, the referee will raise the winner's hand (decided either by Tap out or Referee's Decision). When you win, go to the Coordinator to ensure that you are properly advanced to the next round. The winning competitor will take a seat and wait to be called back to fight again. This process continues until there is a single winner! As we award 3rd place, you may be asked to fight again, even if you lost your prior match.

**IN CLOSING** ...Every one of the 1,000 + matches that will take place starts and ends with a handshake as everyone who competes commands respect. We hope you have a great time at the event and win every match! However, it is the mathematical nature of competition that half the athletes lose. That is why winning and losing is only a part of the reason people compete. You test yourself, both bringing out your best, and inspiring your training in the future. You will see the very best athletes in the sport in action, thus learning more. Grappling is a challenging sport. You are admired not just for taking first place, but for having the courage to compete in the first place. We hope to see you on the mats.
